CTO & BACTERIA PROTECTION

BRAND NEW
UNIQUE TWIST
LOCK HEAD

The SERVE Taste Range delivers superior water quality for mixed beverages, including carbonated and non-carbonated drinks, ensuring every sip is consistently excellent. Its advanced multi-stage filtration system targets bacteria, microplastics, and fine particulates, providing the cleanest water for your beverages.

With granular activated carbon, it effectively reduces chlorine, unpleasant tastes, odours, and PFAS, creating a pure and reliable base for every drink. The result is cleaner, fresher-tasting beverages that consistently stand out.

FEATURES & BENEFITS

- **Ultrafiltration Membrane:** removes bacteria and fine particulates for safe, clean water
- **Granular Activated Carbon:** reduces chlorine, taste, odour, and PFAS for better-tasting beverages
- **Twist-Lock Head:** simplifies cartridge replacement for faster, mess-free maintenance

TECHNICAL DATA

Flow Rate (lpm)	2-4
Operating Temperature (°C)	4-40
Max Operating Pressure (bar)	8
Port Size (")	3/8
Rated Capacity (L)	100,000*

* Based on 0.2ppm chlorine.

MATERIALS OF CONSTRUCTION

|	
Filter body:	Polypropylene & glass fibre
Filter head:	Polypropylene
Membrane:	Ultrafiltration membrane
Carbon:	Granular activated carbon
